

CHAIRS PLAY

Designed by **David Carrasco Barceló**

DESCRIPTION

Play is a light and stackable chair that has been thought to be used outdoors. The idea behind the project was to make a sturdy chair, with maximum stackability and above all light. In its design, it was decided to use straight lines inspired by modern Bauhaus architecture, which divide the chair into different square blocks formed by the back and arms, which gives it a simpler and more robust appearance, and tries to give an air of timelessness to the whole, so that it can be adapted to as many environments as possible without attracting attention. The ventilated backrest provides greater comfort to the user, allowing air to pass through the holes and making it visually lighter.

PLAY ARMCHAIR

Chair for indoor and outdoor use. Injected with PP. Stackable. UV protección. Chair's net weight 2,8 kg.

MEASUREMENTS

W 57cm × **L** 54cm × **H** 78,6cm × **Hs** 44,5cm × **Ha** 65cm
