

TABLES SMART

Designed by **Javier Cuñado**

DESCRIPTION

With the SMART chair we wanted to create a different user experience. It was about generating a nice concept, with dynamic shapes that transmit movement and flow with sensuality, with a fresh touch and very careful details. Its personality is not at odds with its functionality and great versatility. It is attractive, light and surprisingly robust, with a wide range of colors capable of blending into very diverse environments.

SMART is a proposal that will not leave you indifferent.
